Welcome to Seven Lamps. We feature fresh, local craft foods made with passion. We make just about everything from scratch, offering the highest quality with sizeable portions; think "elegant comfort" food. Our menu evolves with daily changes, and our cocktails mirror this fresh take. Come down to our corner that's tucked away in the Shops Around Lenox and be a part of the family. We have a lovely heated and covered patio as well as indoor dining options available.

OUR NAME

The restaurant's unique name comes from an extended essay by English art critic John Ruskin. The "lamps" refer to the seven principles of architecture: sacrifice, truth, power, beauty, life, memory and obedience.
